# Sheik Mohamed Tharicq P

**ORACLE TECHNICAL/OIC CONSULTANT**

**E - Mail:** tharicq1409@yahoo.com **Phone:** + 91 - 9943914651 **LinkedIn:** @Sheik-Mohamed-Tharicq

## PROFILE SUMMARY

- Oracle Integration Cloud Professional with over 4 years of experience in Oracle ERP Implementation, support, and technical consulting.
- Expertise in Oracle Fusion Cloud (Finance & SCM), specializing in OIC Integration and BI Publisher reports (XML, Excel, PDF formats).
- Proven track record in architecting 10+ total integrations and designing End-to-End Inbound/Outbound flows between Oracle EBS R12 and Fusion Cloud.
- Highly proficient in SQL and PL/SQL, including stored procedures, packages, cursors, and performance tuning.
- Hands-on experience across multiple iPaaS platforms including OIC, Workato, and Make.com.
- Extensive experience in the full development lifecycle, including preparing Technical Design Documents (MD70/TD), migration documents, and unit test plans for EBS and Fusion systems.
- Strong background in configuring OIC Adapters (REST, SOAP, FTP, Database, ERP) and managing secure OAuth 1.0 authentication
- Collaborative team player with a proven track record of effectively communicating with cross-functional teams and stakeholders to understand business requirements and deliver solutions that align with organizational goals.

## PROFESSIONAL EXPERIENCE

**Oracle Technical / OIC Consultant | AppSys Global, Inc.** *June 2024 – Present*

**Key Project: NetSuite Integration for CRM & Banking (Client: SunPower, US)**

- Developed 3 real-time integrations between Albatross CRM, Bank and NetSuite ERP to automate customer data synchronization and banking workflows.
- Implemented NetSuite RESTlets and OAuth 1.0 authentication to securely retrieve and process ACH/NACHA payment files.
- Architected bidirectional banking integrations for automated transaction imports and reconciliation, providing real-time cash visibility.
- Engineered complex data mappings and error-handling mechanisms to maintain high data accuracy and reliability.

**Key Project: Sourcing & Procurement Contracts (Client: Emirates Transport, UAE)**

- Architected hybrid integrations between Oracle EBS (on-prem) and Oracle Fusion Cloud to automate Sourcing and Procurement Contracts.
- Implemented 9 integrations to synchronize Supplier Master and Item Master data from Oracle EBS to Oracle Fusion Cloud.
- Developed complex PL/SQL Procedures and registered Concurrent Programs in Oracle EBS to perform delta-based data extraction for Purchase Requisitions (PR), Items, and Supplier outbound flows.
- Engineered outbound integrations from Oracle Fusion Cloud to EBS for the automated creation of Purchase Orders (PO) and Blanket Purchase Agreements (BPA).
- Customized Oracle BI Publisher reports and orchestrated automated report invocations directly via OIC.
- Prepared technical documentation, including solution designs, data flow diagrams.

**Key Project: Fusion Technical Support & Enhancement (Client: 2SeventyBio, US)**

- Provided technical support for Oracle Fusion SCM (Procurement & Order Management), including troubleshooting and bug fixes for BI Publisher components to improve business efficiency.
- Developed and modified complex BI Publisher reports in XML, Excel, and PDF formats tailored to specific business requirements.
- Optimized report performance by refining SQL queries and data models to reduce system load.
- Prepared technical documentation and MD70/TD documents.

**Associate Consultant | 3i Infotech** *July 2022 – May 2024*

**Key Project: Miral Experiences Rebranding Project (Client: Miral Experiences, UAE)**

- Managed source system integrations with OMNI, Maximo, and EATEC, ensuring data consistency across diverse platforms.
- Optimized complex SQL scripts and PL/SQL blocks for performance tuning and deep-dive database object analysis.
- Executed Unit Testing, System Integration Testing (SIT), and User Acceptance Testing (UAT) for all integration interfaces.
- Resolved complex DB object conflicts to ensure a seamless transition during the rebranding phase.

## ACADEMIC PROFILE

**Bachelor of Engineering (B.E.)** *Nellai College of Engineering, Graduated in 2022*

## TECHNICAL SKILL SET

- ✓ **Oracle Integration & Middleware:** Oracle Integration Cloud (OIC), Oracle Cloud Infrastructure (OCI), Workato (Foundations I & II), and Make.com (Foundations to Advanced).
- ✓ **Oracle ERP & Fusion Modules:** Oracle Fusion Cloud (Financials, SCM), Oracle EBS R12, and NetSuite (CRM, Banking, Financial Management).
- ✓ **Reporting & Analytics:** BI Publisher, OTBI, ESS Jobs, Bursting, and Scheduling.
- ✓ **Database & Development**: SQL, PL/SQL (Stored Procedures, Functions, Cursors, Packages), ATP, and DBCS.
- ✓ **Web Services & Data Formats:** REST, SOAP, WSDL, XML, XPath, XSLT, and XSD.
- ✓ **Adapters & Security:** Oracle EBS Adapter, Fusion Cloud Adapter, NetSuite REST Adapter, File/FTP Adapters, and OAuth 1.0.
- ✓ **Documentation & Methodology:** Technical Design Documents (MD70/TD), Configuration Documents, Unit Test Plans, and UAT Support.

## COURSES & CERTIFICATIONS

- ✓ Oracle Cloud Platform Application Integration Professional (2025)
- ✓ Oracle APEX Cloud Developer Professional Certification (2025)
- ✓ Oracle Cloud Infrastructure Certified Foundations Associate (2025)
- ✓ Oracle Cloud Infrastructure Generative AI Professional
- ✓ Make.com Partnership Program Certifications: Foundations, Basics, Intermediate, and Advanced
- ✓ Workato Certifications: Foundations Level I & II

## CHALLENGES & LEARNINGS

- ✓ **Hybrid Architecture:** Resolved structural discrepancies when integrating Oracle EBS R12 (on-prem) with Oracle Fusion Cloud via OIC.
- ✓ **Security & Connectivity:** Overcame authentication hurdles by configuring secure REST/SOAP APIs and troubleshooting OIC adapters.
- ✓ **Performance Engineering:** Managed large-scale data volumes in BI Publisher through report optimization and OIC automation.
- ✓ **Agile Adaptability:** Managed evolving requirements and frequent change requests through proactive stakeholder communication.
- ✓ **Reverse Engineering:** Tackled limited documentation by reverse-engineering legacy components to author detailed MD70 documents.
